CHAT ABOUT OYSTERS.

that would not follow in the wake of ials which now disfigure the lawns, Season's Crop.

> The Bivalves Are as Good and as Numerous as Ever-An Old Colored Cook Tells How the Moliuska Should He Enten.

> > (Special Washington Letter.)

Long before man had learned to hew the shaft or lay the architrave; long before the great free-booter Columbus able for portraiture the colossal bronze discovered an island and committed all was a ressed to a couple of oyst bust of William Cullen Bryant modeled manner of crimes against an innocent captains who were standing near a by Launt Thompson about fifteen people; long before Lief Erickson years ago. It is now in the Metrobasked in the shadows of the fruitage assent politan museum of art, and is placed in of Vinland; long before a Christian tions, insensate oyster lived in our Atlantic waters and held undisputed Hancock, Charles Sumner and Ralph riparian rights in this vicinity.

During the summer months the mollusks are undisturbed. The law protects them from tonging and dredging By some sort of philological legerdemain it has been discovered that only and August they are undisturbed in their watery beds; but from the first day of September to the last day of April the oyster constitutes both a staple and a delicacy in this vicinity for the tables of the rich and the poor. The season will soon be opened with an oyster knife; but some of the oyster dealers say that we are to have a scanty erop this year. If this be true, it will not only be a misfortune to our epicurean folks, but many a working-

man will be out of employment.

Among experts there is a decided difference of opinion, and so marked are the variations of statements that it is not difficult to imagine that a close opinion, and so were the contract of t relationship exists between the oyster men and the peach growers. It is only of late years that the captains of oyster boats have caught on to the fluan cial advantage which comes of a premonitory rumor that the oyster crop is going to be a failure, but now that they see the value of gossip they are working it for all it is worth. As many of the local dealers have to depend upon these saline skippers for their information it is not difficult to figure out the origin of a misunderstanding which may cost the dear public several cents a quart until the error is discovered and the truth spread abroad. But so general is the cry of "oysters will be scarce" that it is almost certain the advance in prices will come. Men have

o make their word good and this musbe done, for a time at least. has said that it would occupy a city Fifty thousand men, nearly all of them freedmen, depend upon the oyster business for a living, in Virginia, Maryland and the District of Columbia half-crescent fifteen feet in depth and From the man who works in the water and loads the sloops with the hardshelled muscular mollusks, to the waiters who serve them upon our tables, all of them depend upon this industry bust. A pedestal eight feet high will support the bust, and the pediment for the maintenance of themselves and their families. Quite a number of them are expert cooks who are paid excellent salaries for their experience and knowledge of how to prepare oysters for the consumers. An old colored woman who has entire charge of the oyster refectory in one of our leading

restaurants, says: "The best way to cook oysters is not nly inscription on the pedestal, and to cook 'em at all. When you eat raw oysters and drink the juice, you am gettin' fat an' your brain am rich. When oysters is fried, chile, dey is pizen. Fryin' oysters makes 'em hard as leather. Ov course, de gemmen drinks ale wid deir fried oysters, w'ich soffens 'em. But dat encourages a wish for strong drink. Don't eat fried oysters, honey; don't you do it. Steamed oysters is just as bad, 'less I steams 'em myself. Whenever the waiters calls for 'well-done steamed,' I says to myself, some white fool upstairs wants to make hisself sick. But I don't 'bey dat order. I jest makes 'em hot 'nuif to swaller whole an' of dat don't satisfy, of dey sends 'em back, the engine broke, instantly killing the I steams 'm so's dey's like sole-leather. But I pity's de man's wife an' chillun. save himself, the engineer jumped into He's sure gwine to hab 'spepsy an' be cross an' mean at home. When I gets

Electric lighting spreads gradually over London. Now Hampstead plans e likes, I makes 'em rahr as possible, Dat's de reason my boss has a repita-'spepsy comin' followin'. Eat your the barrel, and into this ran big screws nually suffocated in bed with their sarved rahr every time." The old woman is a philosopher, and

perous than ever. Theaters droop, but hat's the reason she is a good cook. She is round and fat and oily and black. Her hair is snow-white and her tooth whiter than polished ivory. Her arms the bunghole of the outer barrel, so are bare and fat and round as a big baby's legs. She wears calleo, and earries a big towel over her shoulder, with the hogshead. now being erected will be fit for use by Ir is seriously proposed to bring London and Edinburgh—a distance of five which she constantly mops her face hundred miles—within six hours' rids and hands. While talking, she picks which she constantly mops her face of each other. The locomotive with up an oyster as large as a man's hand, and her remarks are not interrupted which it is hoped to achieve the feat is in progress of construction by a Glas- for a second, when she drops the bivalve into her generously proportioned mouth and swallows it with a gulp. It hammer roughly sculptured in the makes no difference to her whether the rocks. I have no facts or figures con-oyster crop is sently or not. The customers will have to pay higher prices, ity, but understand that it is a memorithat is all; and her occupation and al of the victory of Charles Martel

ABSOLUTELY PURE recently said: "Oysters will b scarcer than I ever knew them to be before, and, of course, prices will b Various Opinions Regarding This higher. We are compelled to charge twenty-five cents a gallon more than we did this time last year. Why are they scarce? The demand exceeds the supply and the demand keeps on grow ing while the oysters become fewer] In four or five years from now I look for oysters to be twice as high as now The Potomne is practically without oysters; it has been cleaned out so far as everything but the young growth is

"Unless there's some oyster planting confidence a group of portrait memorials from people deported Africaus to be slaves done," he continued, "the Potomac the sculptor's studio embracing works in the land of the free, the unpretended oyster is done for, and as we get oyster is done for, and as we go further from home to get supplies w have to pay more for them.'

concerned. Ain't that so?" The query

captains who were standing near and

they both hastened to give vigorous

"How is the Norfolk supply?" Norfolk had to shut up because they couldn't get enough of the crop to during the months whose names are spelled with an r the oysters are were higher, in spite of the mild healthful food. In May, June, July weather, than I ever knew them to be,

COOK 'EN AT ALL.

and the price will be even more alted this season.

Another wholesale dealer says that "this fuss about oysters being scarce is unnecessary. They are not scarce; they are plentiful, and the supply this season will be fully equal to the most extravagant demand. So long as there are people to cat them there will be all the necessary oysters, and they will not be more expensive than they are now. I suppose there is a reason for these rumors about a growing scarcity, but nobody seems to know Where, ten years ago, there were beds of a few acres, I can show you beds twenty miles in extent. People are planting very extensively. It is true that there never was such a demand as now, and it is also true that there never was such a supply. The first work I ever did was some oyster planting for the use of our family, and from that time up to the present I have been handling and dealing in oystors. No 321 Union Street. truthfully say that oysters are be

"Where do we get our best oysters? That depends on the season. The finest September oysters come from Chuckateck river, down in Hampton Roads, and these are more numerous than ever. Shallow water oysters from the Roads are the best in the world at this time; later in the season, when the weather is cold, the deep water oysters will take their place. The best all-round oystors are the Lynn Haven, but the variety doesn't mature until November. We handle New York oysters, but not so early in the season. We cannot be sure of their freshness, and an oyster will not stay fresh very long in this kind of

The captain of an oyster boat says: "The quality of oysters is steadily improving. Oysters are cultivated now as anxious to have better oysters next year than he had this as a stock raiser s desirous of improving the breed of his cattle. The oyster is finer in quality and more numerous than he ever was. He will never be more costly than he now is and he will never be less popular. As I said before, so long as there are people to eat oysters there will be no diminution in the supply." SMITH D. FRY. Whisky Hidden in Molasses

They have sharp liquor scarchers in roscoggin county, Maine, and the wits of rum smugglers are sharpened by contact with them. The cutest scheme yet worked to hoodwink the officers was discovered the other day. The officers, seeing a hogshead of molasses with a suspicious address, seize it. Inside they discovered a whisky barrel. The barrel contained ninetyfive gallons of liquor. Encircly a it was a strong framework, upon which the outer barrel or hogshead was built Two hoops, nearly two inches thick shun fer sarvin' oysters widout no and about three inches wide, encircled ysters raw, honey; or else ask for 'em | from the hoops and staves of the outer hogshead. A similar arrangement was used for the heads, and the space thus made between the inner and outer barrel was filled with molasses. The bunghole of the inner barrel was opposite
